St. GEORGE'S BUILDING

A SUCCESSFUL JAPANESE SPECULATOR.

Three Millions from Almost Nothing.

Tokyo rings with the talk of a remarkably successful speculator in shares who has made a clear profit of three million yen in the course of the last year or two. Mr Suzuki, a young man of scarcely 80 years. of age, is comparatively a novice in speculation, but there seems in his destiny something irresistibly bold, tempered by good sound judgment, which has made him the 2123 hero of the day in speculating dicles. In an interview with a representative of the Jiji Shimpo, Mr Suzuki remarked :--

Before the outbreak of the late war I had been living at an obscure house earning a monthly salary of yen 100 or theresbouts. Of course I had no large amount of money at my command. Just prior to the war I happened to make a gain of a few hundred yen by buying shares of Kanegafuchi Cottons. The outbreak of hostilities brought in its train a violent fall in shares and everybody seemed to be selling out. The naval successes at Chemulpo and Port Arthur brought about no materia! change for the better in the share market. Amidst this unsettled and pannicky state of affairs I stuck to buying all the time. Amongst the chares that I bought most were Kanegafuchi cottons, Tokyo sugars, Tokyo Exchanges, Tokyo gas, Tokyo electric lights, and Nippon Yusen Kaishas. Especially did I feel convinced of the promising nature of Tokyo augar shares, which I had bought up at every possible op-portunity. The result has been that they have returned to me a profit of at least one

million yen. "As I had expected, the tone of the market began to revive towards the close of last year and, with the passing over of the storm caused by the railway nationalisation scheme, a great rise in shares has been brought about. I was persusded that in the near future a rise would be seen in the Tokyo Street Railway Shares, and I therefore began buying them up, beginning last year when there wers practically no buyers. In August last I bought at a sintle meeting 12,000 shares of the company, forward delivery, at yea 72.50 and this at one bidding. Such a thing is almost up precedented in the annals of the Japaness Exchanges. Although the Street Railway Shares were not very popular I was convinced that with the return of prosperity in business circles the shares would rise.

"Well, I have cleared a million yen in Tokyo sugar, about the same amount in Tokyo Exchange shares, about Y600 000 Street Railway shares, about Y500,000 in other electric railways, Hoden petroleum, Tokyo gas, and Japan railways, Y600,000 in Kansgafuchi cottone, and about Y300,000 in sundry shares, making a total profit of something like four millions, of which about one million gose to my brother. If I had not erred in my judgment as to the issue of the peace negotiations I could have made a few No, I do not intend to continue in my speculation in

A BROKEN-DOWN SYSTEM. This is a condition (or disease) to which doctors gire many names, but which few of them really understand. It is simply weakness—a break-down, as I were; of the vital forces that sustain the system. Nomatter what maybe its causes (for they are althe more prominent being alceplessness, sense of entiration or wearlness, depression of spirits and want of energy for all the ordinary affairs of life.

Now, what alone is absolutely essential in all such cases is increased vitality—vigour— VITAL STRENGTH & ENERGY

to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic THERAPION NO. 3
thas by any other known combination. So surely
as it is taken in accordance with the printed

directions accompanying it, will the shattered health be restored, THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worn-out; "used up," and valueless. This wonderful restorative is purely vegetable and innocuous, is agreeable to the tasto—suitable for all contitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing receptantive essence, which is destined to the introduction everything that had preceded it for this

wide-spread and numerous class of human Tments. THERAPION is sold by Chemists throughout the world. Pricoin England, 2/9 and 4/6. Purchaters should see that the word THERATION appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

## A BEGGARS FEAST.

Strange Scéne in a Japanese Forest

We learn from the Japan Times that on Oct. 22 the secluded Government forest at Higashi Hojubans, Higashi hatsushika District, Chiba Prefecture, Japan presented an unusually gay and joyous scene. A feast was held by a leader of beggars under the appellation, Fudo-no-Yasu, in honour of the birth of a baby by his comely, wife, whom he married some twenty months ago. A pavilion, 40 yards square, was pitched and a number of wicker trunks and boxes were arranged in rows as if they were tables. Unluckily, the day was rainy, but more than a hundred guests—all of the same profession as the host—in their best habiliments. Towards twilight the function was opened a present. The guests were then treated to a princely collation with liberal quantities of sake. A few hundred candles were burned. The guests, singing and playing on samised, enjoyed themselves throughout two or three times a day and rubbing the THE excitement incident to traveling and the night, and it was not until the next parts vigorously at each application. If this L change of food and water often brings middey that the assembly dispursed. This people from the neighbouring villages, and

#### BY WHARF AND WAVE.

The following extract from the log of the O.S.K. "Choshu maru" records the salvage of a steamer which had been at McNeur announces that for this year he has the mercy of the waves for three days,

"On October 19th, at 3 p.m., in lati-

"The ete-mer "Jin Ju maru" is owned by the Okinawa Kauln Kaisha, and the complement of hands on board, including two Japanese passengers and 16 Chinese, was forty-five."

A San Francisco paper of the 11th ult. stated that powerful pumps were then in operation on the big steamer "Mongolia" at the Mail dock keeping down the laftex of water in the forward holds. This pumping would be necessary so long as the 'Mongolia" was in the water, as a result of the vessel striking on Midway rest. It

is expected that the steamer would in a few days be placed in the dry dock at Hunter's Point. Repairs are expected to consume at least a month's time. The sympathetic brotherhood that has always existed among the officers of the "Mongolia," continues our ascertain who is most antitled to credit for the good work done at Midway, when for nearly a week the huge liner's fate hung in credit to himself. Chief Engineer William Chisholm, who had proved himself a man comfort of the crowd of passengers, not only at Midway, but afterwards, added to his fine reputation. The "Mongolis" had been noted for the strong personnel of her officers, and in the stranuous times at Midway and on the way thence to port hey proved their worth.

£ S. D. OF IMPERIALISM.

Remarkable Trade Comparison.

The case for Imperialism, regarded from the matter of fact standpoint of material advantage, could not be more affectively pleaded by an advocate than it has been by the American Consul-General at Molbourne, in givin a plain statement of the trade of Australia for 1905,

The imports in that year amounted to £37,322,873, of which Great Britain and her possessions furnished £24,843,289. From Great Britain alone came £19,777,275 worth, from Zealand £2,216,350, from India £1,218,003, Ceylon £648,394, Canada £369,002, and Straits Settlements £101,284. All other British possessions fell below £100,000.

The following table shows, in round figures, what Australia purchased from the principal countries during 1905 :-Great Britain and Possessions 094,843,290

United States 9,946,030 Germany 307,870 Graner apan The Concel General concludes

Amstralian outlook was never enuorenging their it is at present. On all sides a steady crevil in prosperity is discernible, and it would appear that a period of and times is in store for this country. The producing industries are in a very flourishing condition. Another pasteral year is assured with an increased wood clip, and the probability of hi h prices Dairs in z and kindred industries show stoody progression. Mining of all kinds is more than fulfilling expectations. Grain growing continues healthy and profitable, and generally speaking production is expanding rapidly in all directions, and nea result the wealth of Australia, is quickly increasing and its trade it to proding the improved conditions
